

**New Release by Local Artist: Old Voice**

# **Larry Carpenter**

**Larry has been playing and singing since his college days. He has dragged his guitar to Africa, New Zealand and across the North Atlantic twice on sailboats. Many of the songs he plays have a nautical flavor and can be heard from the deck of his sailboat on Lake Superior or around a campfire at music festivals. This collection will take you to glaciers of Patagonia, farms of the Great Plains, the Labrador coast, and the Australian Outback. And there are songs to take you home.**

**Joining Larry on this “Old Voice” CD are Laura Moe with vocals and Bill Travers on guitar.**

“Carpenter sings in reflective storytelling style you warm to right away. And plays finger-picking guitar with a fascinating grace.”
